PLAN C

SEVERE WEATHER PLAN

Severe Weather includes tornados, severe thunderstorms, violent snow storms and flooding.

Tornados/Severe Thunderstorms Watch:

If a tornado or a severe thunderstorm **WATCH** has been issued in an area that includes the campus.

Definition of a Watch: A severe thunderstorm or tornado watch is issued by the National Weather Service, when the weather conditions are such that a severe thunderstorm, a tornado, or both, are more likely to develop and you should be prepared to move to a designated area.

Monitor Local Emergency Alert Weather or the National Weather Service.

Faculty and staff should be alerted to close all windows, inform students of building's safe areas, and be ready to relocate to those areas in case the **WATCH** is upgraded to a **WARNING**.

Definition of a Warning: A severe thunderstorm or tornado warning is issued by the National Weather Service when a thunderstorm or a tornado has been sighted or indicated by weather radar. At this point the danger is very serious and you should move to a designated safe area.

Tornados/Severe Thunderstorms Warning:

If a tornado or a severe thunderstorm **WARNING** has been issued in an area which includes the campus:

- Move students and staff to safe areas **IMMEDIATELY**.
- Close classroom, laboratory, and/or office doors.
- Instructors move your students to designated safe areas and take attendance book with you.
- Remain in safe area until warning expires or until the all-clear has been issued.

EMERGENCY RESPONSE AND EVACUATION PROGRAM
PLAN D

Hostage/Intruder Situation Plan

If an intruder(s) enters a classroom or enclosed area with a weapon and threatens to shoot or injure persons, these guidelines should be followed:

Responsibilities

Executive Director/Designee

1. Immediately notify Police/Sheriff and appropriate law enforcement agencies (911).
2. Initiate ***Action Secure Building***
 - a) Lock down building, and do not let any students that are not in class enter the building.
 - b) Alert all rooms of the event
 - c) Instructors lock your classroom doors and do not let students leave the classroom.
3. Notify the Executive Director
4. Monitor hostage situation the best you can without doing anything to exacerbate it.
5. Follow instructions of law enforcement officials who will take over when they arrive on site.

Staff

6. Remain calm. Talk with the individual(s) in a low-key, non-threatening manner. Do not argue with or antagonize the individual(s) in any way.
7. Keep your distance. Give the intruder(s) ample personal space.
8. Do not attempt to deceive or threaten the intruder(s).
9. Do not “buy into” the delusions of the intruder(s).
10. Suggest marching the students and/or staff quietly out the back door. Back off if this approach angers the intruder(s).
11. Be constantly alert and prepared for violence. Initial *Action, Duck, Cover and Hold* if the intruder(s) open fire.

Note: If the school becomes involved in a hostage situation, the primary concern must be the safety of students, staff, and faculty. Individuals who take hostages are frequently emotionally disturbed, and the key to dealing with them is to make every attempt to avoid antagonizing them. Communication must be handled in a non-joking manner, always remembering that it may take very little to cause such persons to become violent.

If an individual(s) begins firing a weapon(s) on campus, the following actions will be taken:

Executive Director/Designee

1. Inform staff supervising students in classrooms to initiate *Action Duck, Cover, and Hold*.
2. Immediately notify Police/Sheriff (911) and appropriate law enforcement agencies.
3. Notify the Executive Director.
4. Work in coordination with supervisors of law enforcement agencies until the situation is resolved.
5. Initiate pupil release procedures and/or evacuation procedures only if it becomes necessary.

Staff

6. In classrooms, maintain *Action Duck, Cover and Hold* until the situations is resolved.
7. In open areas, move students to safer areas as quickly as possible. Only in extreme cases should it become necessary to initiate *Action Drop, Cover and Hold*; this should be done only when there is no chance for students to reach safer areas.
