

LPN TO RN BRIDGE PATHWAY

PROFESSIONAL LICENSURE/CERTIFICATION DISCLOSURE

The practice of Nursing requires a professional license. Each state and US territory has its own standards to sit for the professional licensure exam (the NCLEX-RN) and/or to transfer a license from one state/territory into its state/territory.

This document provides you a list of those states and territories where this institution has made the determination that its nursing curriculum either meets the educational requirements for licensure, does not meet the educational requirements for licensure, or no determination could be made whether it meets or does not meet the educational requirements for licensure.

Also, understand that in the states/territories where the institution has made the determination that its curriculum meets the educational requirements for licensure, this does not mean that this is the only requirement to be licensed in that state/territory. Every state/territory likely will have additional requirements to be licensed in that state/territory.

To assist you in making your decision whether to apply to this Nursing Program, we have provided you a list of states and territories and their respective contact information for the nursing governing boards, where available. This list is also available on our website under the Consumer Information link. We encourage you to contact the licensing governing body in the state or territory in which you desire to become licensed or intend to work to seek additional information prior to enrolling in our program.

State	Curriculum Meets the State Educational Requirements for Licensure or Certification	Curriculum Does Not Meet the State Educational Requirements for Licensure or Certification	No Determination Made as to whether Certification or Licensure is Required for Employment	State Licensure Board Contact Information
